We are pleased to announce that we are now able to offer to our merchants and companies the ability to provide prepaid Debit cards, prepaid wireless cards, prepaid ringtone cards, & prepaid payroll cards. Prepaid Debit cards can be used for those without excellent credit, or for those without banking privileges. One of the fastest growing markets today is in the prepaid card industry.

AMS is excited to offer this new business solution. Merchants and companies that participate by offering these cards will increase their customer base, their customer loyalty and their bottom line. Debit cards also make tremendous gift card options for customers. You would be able to use it in thousands of locations.

One of the most popular prepaid cards today are long distance, wireless, and ringtones for your cell phones. Adults of all ages are changing their ring tones on their cell phones and many are choosing to purchase prepaid wireless instead of participating in a contractual wireless program. We will offer cards for major wireless companies.

For those companies that do not want to become a retailer of debit/wireless/ringtone/payroll prepaid cards, AMS will actually be a retailer to them as well. We are able to provide this service. Want a gift card for your employees, or for a referral for a client. We can help you with a prepaid debit card. Need a prepaid card for your college student, we can provide it for you.

Need more information, or would like to become involved as a retailer of prepaid cards. Call AMS today @ 866-914-2AMS or email us at [info@bedrockmerchants.com](mailto:info@bedrockmerchants.com)
