To our valued merchants, AMS is launching a new program, named Cash-On-Demand, offering a new credit opportunity for those who process with AMS.

It's a merchant advance program, and it is available to any retail merchant (non home based) that's been processing with Advanced Merchant Services for at least three months, and has at least \$5,000 per month of regular processing activity.

Depending on your regular processing activity, merchants can get an advance of up to over \$20,000. Need to remodel, build on, add to your inventory, and more. Contact us today so that we can begin to help you fund those necessary expenditures. Email us at info@bedrockmerchants.com or call 1-866-914-2AMS. Another opportunity given to help us help you grow your business.
